

Daticon EED's eDiscovery Process Design Practice helps corporations develop an internal legal process to standardize eDiscovery protocols, reducing the cost and legal risk of electronic discovery. Leveraging our decades of combined legal, technology and eDiscovery experience, the Daticon EED service line addresses the complex interrelationship of records management, e-mail archiving and compliance with new Federal Rules of Civil Procedure.

THE Daticon EED ADVANTAGE

Daticon EED leverages decades of experience advising Fortune 500 corporations and top-250 law firms.

We have assisted corporations and law firms worldwide in thousands of matters.

Our proprietary process has never been successfully challenged.

Our process design team is made up of world renowned technology experts, former practicing attorneys and former corporate counsel.

Our hosted review system, Discovery Partner®, is well known in the industry for its ease of use and intuitive interface.

Legal eDiscovery Process Design

**Minimize Risk and Costs,
Comply with Federal Rules.**

Minimize Risk & Costs

Our eDiscovery process design services minimize legal exposure and reduce costs by enabling our clients to:

- **Consistently** respond to eDiscovery requests, regardless of jurisdiction or law firm.
- **Quickly** identify data systems that likely contain discoverable content
- **Efficiently** assemble the internal IT teams that will be called to respond
- **Expertly** advise corporate counsel on best practices for reducing the costs of processing, review and production

Our complete service line combines our proven, enterprise-wide eDiscovery process design with our world-class processing, hosted review and production services. This integrated approach allows you to control your eDiscovery process from beginning to end.

Our consultants work closely with key stakeholders in corporate legal, IT and affected business units to analyze the way data is handled and understand how the business interacts with its IT infrastructure. After identifying potential risks, Daticon EED works with stakeholders to build a process model that can be used across the company, worldwide, by employees as well as the external parties that interact with them.

Comply with Federal Rules

Given the current state of electronic discovery and recent changes to the Federal Rules of Civil Procedure, many organizations need help understanding their legal exposure in relation to potential discovery requirements. In addition to helping clients assess litigation readiness and minimize potential risks, Daticon EED process design services bring clients into compliance with new federal rules that require disclosure of electronic discovery processes at the start of litigation. Daticon EED helps companies achieve the best strategic position before a case begins.

Components of our process design practice include:

- Litigation readiness/IT inventory
- Litigation hold, preservation and compliance strategies
- Negotiation of subpoena and discovery scope and terms
- Preparation for Rule 26 meet and confer sessions
- Preparation of eDiscovery interrogatories
- Preparation of eDiscovery interrogatory responses
- Data collection strategies
- Consultation on culling parameters and search term strategies
- Consultation on existing records management and document retention policies

About Daticon Electronic Evidence Discovery

Daticon EED is a nationwide provider of eDiscovery services and technology with more than 20 years of experience managing the most complex and challenging eDiscovery projects. We combine a proven methodology, expert staff and our industry-leading Discovery Partner™ hosted review platform to significantly reduce the risk, cost and time of eDiscovery for global corporations and law firms. We offer services for both large and small cases, including case strategy, pre-review analytics, review optimization, early case assessment, as well as processing, hosted review and production. With headquarters in Kirkland, WA, and operations in Norwich, CT, Southern California, Chicago, New York, Washington, DC, and London, Daticon EED offers convenient regional support for national and international cases.
